Sri Lanka Foundation

Certificate in ICT competency

ABOUT PROGRAMME

The programme is based on empowering the tenure “Human resources will be the foundation for creating a prosperous country. Therefore, human resource development will be primary responsibility of our government.” (Saubagya Dakma 2020)

Forward March for a fruitful human capital - has become the motto of the era and to make it a reality the Sri Lanka Foundation (SLF) has launched programs to harvest products of quality education for a better nation. Hence, SLF has taken the pride of sharing the vision of the government towards developing a human capital through quality education by practicing the norm of “Quality Education” aligning with 17 Sustainable Development Goals (SDGs) of United Nations.
